Release Notes
Scribe Adapter for Salesforce.com

Version	2.8.1
Release Date	June 2, 2015

Requirements

- Scribe Insight 7.9.0 or later
- A Salesforce.com Account

⚠️ Additional configuration may be required to leverage Salesforce.com's workflow capabilities.

For more information, see Implementing the Adapter in the Salesforce Adapter Online Help.

⚠️ If you are using integration templates provided by Scribe, verify in the template release notes that your template is compatible with this updated adapter. You can also check release information on the Scribe template download page for up-to-date information.

What's new in Version 2.8.1

Version 2.8.1 of the Scribe Adapter for Salesforce.com represents a technical alignment with Scribe 7.9.0.

Help for this Adapter is in the Scribe Help Library. See the Scribe Insight and Adapters Download page for the latest version of Help.

Fixes

Case Number	Description
—	No new fixes are included in this release.

For information about the previous release, see the [Release Notes for the Adapter for Salesforce.com V2.8.0](#).

Known Issues

Case Number	Description
—	There are no known issues in this release.

Getting Help

Scribe is dedicated to providing information as quickly as possible to those who need it. We have created the [Scribe Success Community](#), where you can find Scribe product information, engage in discussions with other Scribe users and Scribe employees. Searching for information does not require that you log into the Community. Logging in is required to begin a discussion or open a support case. See [Signing Up As A New Success Community Member](#).

Always check the [Scribe Help Library](#) for the latest version of Scribe's Help files.

Feedback

Scribe is very interested in hearing about your experiences with our products and documentation. We invite you to join the [Scribe Success Community](#), where we welcome your comments and suggestions for improvements. See [Signing Up As A New Success Community Member](#).
